

We listen to K-LOVE on 88.9. We are located in a rural area and enjoy the availability of quality programming. I personally listen to K-LOVE in the horse barn, my pickup and in the bedroom as I am dressing in the morning. Because of the extensive amount of violence, sexual content, profanity, satan worship, demeaning, generally negative quality of today's radio stations and the music played, I choose not to listen to most all stations available. K-LOVE is a station I can count on for encouragement. Please do not take away our free choice to have music and encouraging words available. There is enough trash out there!!!
